SUMMARY

Digital media professional with a master's in Digital Media and experience in website design, visual communication, research, and accessibility. Combines technical skills with an understanding of people's needs to make digital information clear, engaging, and accessible. Experienced in collaborating with developers, researchers, and stakeholders and creating designs using Figma, Adobe Photoshop, and Illustrator.

CORE SKILLS

DESIGN & VISUAL COMMUNICATION
Visual & Interface Design | Information Architecture | Responsive Web Design | Wireframing & Prototyping | Inclusive Design | WCAG Accessibility Evaluation

RESEARCH & AUDIENCE INSIGHTS
Qualitative Research | User & Stakeholder Interviews | Competitive Research | Usability Evaluation | Survey Analysis | Thematic Analysis

TOOLS & TECHNICAL
Adobe Photoshop | Adobe Illustrator | Figma | WordPress | HTML | CSS | JavaScript | MAXQDA

EXPERIENCE

UX/UI Student assistant • Cognitive Systems Lab Nov 2024 - Sep 2026
Universität Bremen, Bremen Germany

- Led design for the public-facing Bremen Big Data Challenge website and designed internal applications, registration systems, and dashboards.
- Created digital graphics and merchandise designs to support the challenge's visual identity and promotion.
- Used Google Analytics to monitor website traffic and visitor engagement.
- Collaborated with researchers, developers, and stakeholders, creating Figma prototypes and reusable components to meet project needs.
- Built responsive interfaces using HTML, CSS, and JavaScript and improved accessibility through WCAG evaluations.

UX/UI Role • Dress for Success Jan 2024 - May 2024
Pittsburgh, PA

- Redesigned the Virtual Connections Resource Center to improve usability, navigation, and accessibility.
- Collaborated with stakeholders to translate requirements into responsive web interfaces.

Data Intern • American Association of Teachers of German Jun 2023 - Aug 2023
Pittsburgh, PA

- Collected, organized, and analyzed data for the AATG database to improve the accessibility and usefulness of information for employees and online users
- Supported improvements to the database and web interface

Research Assistant • Washington & Jefferson College Feb 2022 - Nov 2022
Washington, PA

- Conducted student interviews and qualitative research on human-robot interaction.
- Analyzed research findings and supported prototype development using JavaScript.

UX/UI Intern - The Path Group Sep 2022 - Nov 2022
Berlin, Germany

- Supported website redesign through UX research and usability improvements.

SELECTED PROJECTS

UX Research & Interaction Design — AI in Education Platform
| University of Bremen | Semester Project 2025/2026

Developing a learning platform for university staff

- Conducted user interviews and thematic analysis to identify user needs and platform requirements.
- Created personas, journey maps, and interactive prototypes to explore user workflows and edge cases.
- Analyzed survey results and user feedback to evaluate usability and recommend design improvements.

Graduate Research — Master's Thesis | University of Bremen | 2026

Exploring the uses of Generative AI for University Students with Dyslexia

- Independently designed and conducted a qualitative study involving six semi-structured interviews examining accessibility needs and human–AI interactions.
- Analyzed data using Reflexive Thematic Analysis and MAXQDA, synthesizing findings into insights on user workflows, accessibility barriers, and technology use.

EDUCATION

- M.S., Digital Media — University of Bremen, Germany | Oct 2026
- B.A., Computing & Information Studies (Focus: Interaction Design) and German; Minor in Psychology — Washington & Jefferson College | May 2024

CERTIFICATIONS

- WCAG Compliance: Web Accessibility Best Practices (2026)
- Google UX Design Certificate (2026)
